Brand guide

BIT-PERFECT HI-RES AUDIO FOR MACOS · 2026

LOGO

Primary · on obsidian

On light

Stacked · square spaces

Clear space: half the crescent's height on every side. Minimum size: 24 px tall (screen), 8 mm (print).
The wordmark is always lowercase, Newsreader Light, and always paired with the crescent in brass.
Don't recolour the crescent, stretch or rotate the lockup, add effects, or set the name in another typeface.

COLOUR

Obsidian	Surface	Ivory	Ash	Brass	Brass light	Brass dark	Copper
#09090A	#16161A	#ECE6DA	#A29B8F	#C8A66A	#E7CD98	#7C6541	#C98B5B
background	panels, cards	text, wordmark	secondary text	accent, bit-perfect	highlights	gradient end	converted / warning

Brass means untouched signal; copper means something was converted. Keep brass rare: one accent per view.

TYPE

Late-night listening

Newsreader Light · display and wordmark

Dark Side of the Moon

Newsreader Medium · names of things: albums, headlines

Every sample reaches your DAC exactly as it was recorded.

Inter · interface and body text

24-bit · 192 kHz · unity 0.0 dB

JetBrains Mono · every number that describes the signal

LABELS

● BIT-PERFECT EXCLUSIVE 32 / 192 NATIVE DSD · DoP HI-RES LOSSLESS

Monospaced capitals with a 1 px hairline border; the brass variant carries a dot. Numbers are always the real ones.

VOICE

Calm, exact, unhurried. Say what happens to the signal, in plain words and real numbers.
Show, don't claim: a readback, a spectrum, a measurement. Never "best", "ultimate" or "studio-grade".
Free and open source (GPL-3.0). No logos of Apple, Dolby, DTS or AirPods, only their names in plain text.

Vespertine is not affiliated with Apple, Dolby Laboratories or Xperi/DTS. Their names are trademarks of their owners.
